2015-2016 GRADUATE CATALOG

Seattle University’s Reservation of Rights and Effect of Catalog

The university reserves the right without prior notice to change the fees, rules and calendar regulating admission and registration, instruction and graduation from the university, and to change any other policy or regulations affecting students. Changes go into effect whenever university officials so determine and apply not only to matriculated students but also prospective students. The university reserves the right to discontinue courses at any time.

This Catalog contains general information. It is not a contract and statements in it should not be construed as a promise of specific treatment for any particular circumstance.

Seattle University Nondiscrimination Policy

Seattle University does not discriminate on the basis of race, color, religion, sex, national origin, age, disability, marital status, sexual orientation, gender identity, political ideology or status as a Vietnam-era or special disabled veteran in the administration of any of its education policies, admission policies, scholarship and loan programs, athletics, and other school-administered policies and programs, or in its employment related policies and practices.
Graduate Degree and Certificate Programs

Degrees

College of Arts and Sciences
• Master of Arts in Criminal Justice
• Master of Arts in Criminal Justice with Specialization in Criminal Justice Research and Evaluation
• Master of Arts in Criminal Justice with Specialization in Investigative Criminology
• Master of Arts in Criminal Justice with Specialization in Victimology
• Master of Arts in Psychology
• Master of Fine Arts in Arts Leadership
• Master of Nonprofit Leadership
• Master of Public Administration
• Master in Sport Administration and Leadership

Albers School of Business and Economics
• Bridge Master of Business Administration
• Professional Master of Business Administration
• Master of Professional Accounting
• Master of Science in Finance
• Health Leadership Executive Master of Business Administration
• Leadership Executive Master of Business Administration

College of Education
• Doctor of Education/Educational Leadership (EdD)
• Educational Specialist/Educational Administration with Principal Certification (EdS)
• Educational Specialist/Educational Administration with Program Administrator Certification (EdS)
• Educational Specialist/School Psychology (EdS)
• Educational Specialist/Special Education (EdS)
• Master of Arts in Education/Adult Education and Training
• Master of Arts in Education/Community Counseling
• Master of Education/Educational Administration General Administration Specialization
• Master of Arts in Education/Educational Administration Principal Specialization

Course Descriptions

PSYC 5210 - World of the Clinic
3 credit hours
Formerly - PSYC 541

This course provides a critical examination of the American mental health system. Perspectives taken include those from history, sociology, anthropology, philosophy, and psychology. Emphasis on the evolution of mental health care from the 19th to 21st centuries, and how student practicum sites fit or not within the larger mental health system, past and present. Majors or permission of the instructor.

Co-requisite Course: PSYC 5820
Terms Offered: Fall

Expanded Course Descriptions

Seattle University

2015-2016 Graduate Catalog

Course Descriptions

Structural Engineering

- CEEGR 5110 - Advanced Structural Analysis
  4 credit hours
  Advanced structural analysis focusing on modern matrix analysis methods. Topics include: (1) matrix stiffness and flexibility methods of structural analysis; (2) virtual work principles; (3) introduction to nonlinear analysis.

- CEEGR 5120 - Earthquake Engineering
  4 credit hours
  Introduction to earthquake engineering analysis and design of structures. Topics include: 1) elastic single degree of freedom systems, 2) ground motion characterization, 3) response spectra, 4) inelastic single degree of freedom systems, 5) multi-degree of freedom systems, 6) base shear capacity of building structures, and 7) code-based seismic design.

- CEEGR 5130 - Behavior of Structural Systems for Buildings
  4 credit hours
  Provides larger perspective of building design and building behavior. Topics include code-based determinations of loads on building systems and members, approximate methods of analysis to determine load distributions and deflections for different structural systems from lateral forces and the behavior and design of standard industry lateral force resisting systems, including moment frames, shear walls, link beams, and dual systems.

Prerequisite Course: CEEGR 5110
